DEPOTS

MANUAL PAIRING · DR DEPOTS

Pair your Portomundi account with DR Depots

For transport companies that didn't receive a personal pairing link, or that start working with DR Depots later.

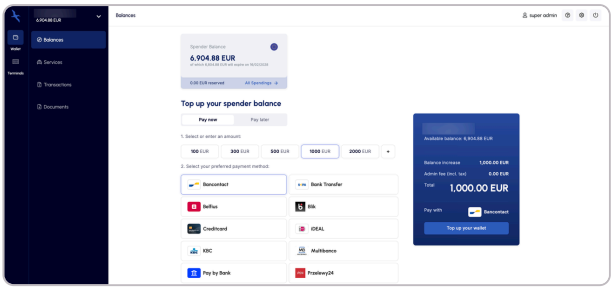

From 1 January 2027, DR Depots Antwerp settles depot visits during the night hours (22:00 – 06:00) through your company's Portomundi wallet. Pair your account once, in four steps, and your drivers can keep coming in as usual.

01

Log in or create an account

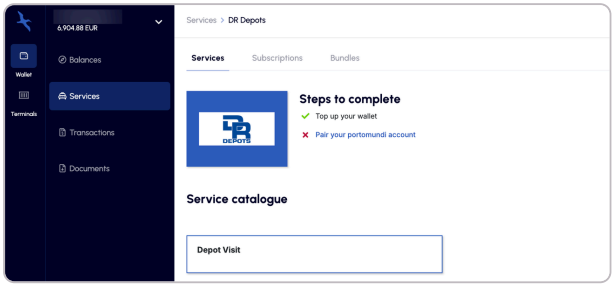

Go to **wallet.portomundi.com** and log in. No account yet? Click **Sign up today** and register your company first.

02

Top up your balance

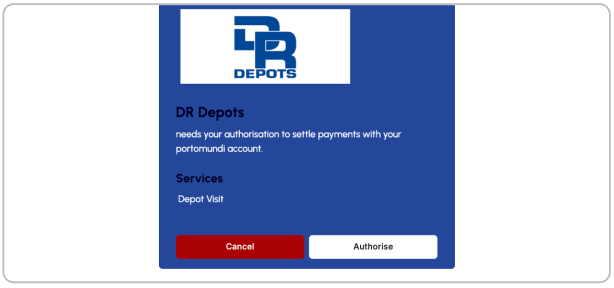

In **Balances**, choose an amount and a payment method, such as Bancontact or bank transfer, and click **Top up your wallet**.

03

Open the DR Depots service

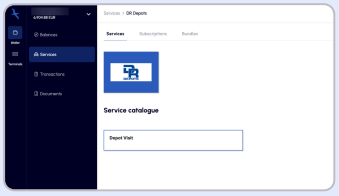

Go to **Services** and open **DR Depots**. Under Steps to complete, click **Pair your Portomundi account**.

04

Authorise Depot Visit

Check that the screen shows DR Depots and the Depot Visit service, then click **Authorise**.

That's it: your account is paired

The steps to complete disappear and Depot Visit shows in the DR Depots service catalogue. From now on, night-time depot visits are charged to your wallet, so keep enough balance on it.
